Summary

Dedicated Fresher seeking a Software Developer role to apply my technical knowledge, learn new technologies, and grow with the organization. I am eager to take on challenges, improve my skills, and contribute effectively to the team.

WORK EXPERIENCE

InfoBeans Foundation

Trainee

July 2025 - Present

- Currently working as a Trainee at InfoBeans Foundation , gaining hands-on experience in developing full-stack web applications using Java, Spring, SpringBoot, Hibernate, Servlets, and JSP. Built RESTful APIs , implemented business logic, and worked with MySQL databases. Involved in frontend development using React.js, React Redux, and Tailwind CSS , and used Git/GitHub for version control.

EDUCATION

Govt. Holkar Science College

BCA(Bachelor Of Computer Applications) - 7.71

2022 - 2025

Govt.School Of Excellence Bal Vinay Mandir Park Road Indore

Higher Secondary - 82.00%

2021 - 2022

Vidya Varidhee Bal Vinay Mandir Indore

High School - 84.00%

2019 - 2020

SKILLS

- **Languages & Technologies:** HTML, CSS, JavaScript, React.js, Redux, Tailwind CSS, GSAP, Java, JSP, Servlets, Hibernate, Spring, Spring Boot, Node.js, Express.js, MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Eclipse

PROJECTS

Smart Queue Management System | Java Full Stack Project

- **Problem** : Manual queuing caused long wait times, lack of transparency, and inefficient service handling.
- **Solution** : Developed a token-based digital queue system using JSP, Servlets, Hibernate, and MySQL with priority and FIFO algorithms.
- **Features** : Real-time queue tracking, wait-time estimation, automated token generation, admin dashboard with analytics, and a responsive UI built using HTML, CSS, JSP, Bootstrap, and JavaScript. Deployed on Apache Tomcat with Git/GitHub.

Website Builder SaaS – Full-stack React & Node.js

- Built a responsive web platform enabling users to design, customize, preview, and deploy websites with one click.
- Implemented OAuth authentication and protected routes using Firebase.
- Developed drag-and-drop editor with live preview (React, Redux Toolkit)
- Built RESTful APIs with Express and MongoDB (MVC architecture)
- Integrated Stripe subscriptions and webhook handling
- Delivered scalable MVP with modular, clean architecture
- **Tech Stack:** React, Redux Toolkit, Express, MongoDB, Firebase, Stripe, Monaco.

Social Web Chat App/- MERN Stack Project

- Built a real-time chat platform with Node.js/Express, MongoDB, and GetStream.io.
- Secured users via JWT and exposed REST APIs for users, chats, and friend requests.
- Created responsive React/+Vite UI with custom hooks, Axios layer and theme support.
- Added WebRTC video-calling and live updates through GetStream.io.
- Structured code with middleware, clean models, and ESLint-backed standards.
- **Tech Stack:** Node.js, Express, MongoDB, GetStream.io, React, Vite, JWT, WebRTC, Daisy UI, Axios.

CERTIFICATE

Full Stack Web Development

- Successfully completed the National Skill Up Program in Full Stack Web Development, gaining hands-on experience in building end-to-end web applications using HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. The program covered UI development, REST API creation, database integration.
